Why you should choose us:

We are the only ones who connect you directly with the owner completely free of charge.

We are here to help you find the same accommodation up to **20% cheaper** than through a tour operator

You can have a live preview of the accommodation (on request). So, you know exactly what you are booking.

As we are from Corfu and have extensive experience in the tourism industry, we know the island off **by heart**.

Our job is to go door to door and talk with the business owners so we can provide you with the most ideal solution at the best possible price.

Even if a hotel is not listed on our website we can often arrange a better price for you. Just let us know and we will do our best.

As well as accommodation we offer a full service during your stay including transfers from the airport, recommendations of the best places to eat with discounts for our guests, car hire, tours of the island or boat hire.

Whatever you need we are always on hand with advice and assistance.

Our intention :

- Ø To ensure the most economical, safe, and secure transportation to your accommodation without stress and wasting your time trying to locate it.
